## SPRING AWAKENING

Because skin needs a good spring cleaning like everything else, Le Vin from Olavie offers the Spring Blossom Facial (\$138 suggested, 50 to 55 minutes) to reduce lines, boost collagen production, and rejuvenate skin while protecting it from environmental stress and pollution. This facial is especially effective because it incorporates an Enzyme Exfoliation Mask, which relies on papaya, pineapple, and pumpkin seed enzymes to remove dead skin cells, and Le Vin's exclusive Vita-Vino Actif, which provides not only antioxidant protection but also potent anti-aging benefits. It's a key ingredient in the facial's Eye Serum, Face Serum, and Face Cream. A chore no more, this spring cleaning leaves spa-goers with fresh and fabulous skin.
